Spring 2015 Magazine Editorial Deadline: February 27th

What is 7x24 Exchange?

Formed in 1989, *7x24 Exchange* is the leading knowledge exchange for those who design, build, use and maintain mission-critical enterprise information infrastructures, aiming to improve end-to-end reliability by promoting dialogue among these groups. Founded on the belief that most professionals involved with End-to-End information infrastructures work in isolation when dealing with technical, budget, political, and career issues, *7x24 Exchange* creates communications vehicles designed to promote dialogue among these groups and to advance the state-of-the-art in infrastructure reliability. With the information from these dialogues members can alert top management to the importance of proactive measures and help protect their companies' information lifeline. Open, trusting, formal and informal dialogue between members is key to achieving *7x24 Exchange's* mission. Magazines, National Conferences, Chapter Meetings and the website at www.7x24exchange.org, are the primary vehicles used to promote this dialogue.
